

# Assembly instruction

## MODEL CHARA WEIGHT 34 KGS

WALLS ARE CONSTRUCTED FROM DIFFERENT MATERIALS, FOR EXAMPLE, MASONRY (SOLID BRICK) CEMENT OR PLASTERBOARD LINED CAVITY WALLS (HOLLOW). IT IS IMPORTANT THAT YOU USE APPROPRIATE WALL FIXINGS FOR YOUR WALL TYPE.

CUSTOMERS ARE ADVISED TO ENGAGE THE SERVICES OF A PROFESSIONAL PICTURE FRAME HANGER TO INSTALL THIS PRODUCT.

**step I : Measure the distance between the two hooks**

**step II : Measure the same distance on the wall and mark the position**

**step III : Drill holes in marked position**

**step IV : Hammer wall fittings into holes**

**step V : Place screws into wall fittings**
